SOLD!

ITEM DETAILS

SERIAL # 6113-045

Seller Supplied Information:

SCS Technologies 3" LACT unit, Skid Mounted With a 3" Smith E3-S1 PD Meter

Reported Serial Number: 19713-03

One (1) 3" 150# ball valve (Inlet isolation) One Pressure gauge assembly

One (1) 3" 150# strainer (with 4 mesh screen plate) with DPI gauge One (1) TEFC motor and ANSI pump, 480 VAC, 3 phase

One (1) 3" 150# BS&W capacitance probe with 4528-5 detector card mounted after pump on vertical riser

One (1) Pressure gauge assembly mounted at highest point on loop

One (1) air eliminator mounted at highest point on loop

One 3" 150# static mixer with dual element mounted on vertical down comer before sample draw

One (1) 15/20 gallon sampling system with Clay Bailey lid, complete with mixing pump and 1/2" inline static mixer, sample probe beveled insertion type, located downstream of inline static mixer, insertion length constructed to receive sample from middle third of flow per API recommendations for flow weighted sampling, SS 3-way solenoid valve/XP 120 VAC coil, volume regulator, plumbed to sample receiver on minimum down gradient of 1" per foot for proper gravitational flow

One (1) Sampling pot mixing TEFC motor and pump, plumbing to include inline 1/2" static mixer, manual draw, valved and piped for evacuation of receiver to suction side of main transfer pump

One (1) Manual draw insertion probe and check valve on main piping downstream of sample point for spot check of fluid characteristics

One (1) 3" 150# electric hydromatic divert valve

One (1) 3" Smith E3-S1 positive displacement meter with right angle drive and VR Truck loading counter head

One (1) TA probe mounted in meter

One (1) test thermowell assembly positioned on downstream side of meter within API specifications

One (1) Pressure gauge

Prover Connections including one (1) Franklin DuraSeal DBB Valve 3" 150# ANSI, proving tees w/full port 3" 150# ANSI ball valves proving line drain valves 1/2" to sump enclosure, male 3" cam lock connections w/dust covers, enclosed sump with lid

Two (2) 3" 150# backpressure valves, one for outlet of sales line and one for divert line

Two (2) 3" 150# swing check valves, one for outlet of sales line and one for divert line

One (1) 3" 150# ball valve (Outlet isolation)

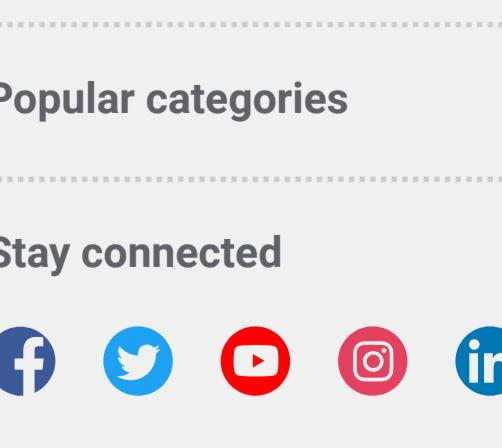

The current operating and/or physical condition of the unit has not been verified by IronPlanet.
